Please note that you do not need development approval for pruning if it is not likely to affect the health or appearance of a tree on your property. This is considered maintenance pruning.

However Development Approval is required if the pruning:

- removes more than 30 percent of the tree crown; OR
- affects the appearance of the tree and removes branches:
 - that are not dead or diseased
 - do not pose a material risk to buildings or areas frequently used by people.

Please ensure that this information is included in any quote submitted.

Is development approval required for the proposed works? *

Yes No Don't know

Some tree maintenance works require development approval. If you are unsure, please call the Council's Duty Planner on 8405 6096 to confirm if approval is required. It is an offence to conduct development without Council approval.
